

1. Preparation of Plans and Program of Works for Infrastructure Development Programs and Public Works

One of the services rendered by the City Engineer's Office, specially the Construction Section, is the preparation of the Plans & Programs of Work for infrastructure Development Programs and Public Works as requested by barangay officials, other offices and departments of the city government.

These usually are regarding repair and construct of:

1. Drainage System
2. Concrete Roads
3. Public and Government Buildings
4. Other Infrastructure Projects

These Services are being provided to guide constituents in the implementation of the proposed project especially regarding plans, specifications, and cost.
