

BAYANIHAN SA ESTERO PROGRAM – CLEANUP AND DREDGING OPERATIONS

The City Government of San Juan, led by Mayor Francis Zamora, the City Government of Quezon, led by Mayor Joy Belmonte, and the Metropolitan Manila Development Authority (MMDA), led by Chairman Atty. Don Artes, led the conduct of the Bayanihan sa Estero program on Wednesday, August 20, 2025 at Lambingan Bridge, Aurora Boulevard, San Juan City.

The simultaneous cleanup and dredging activity deployed MMDA dredging equipment, garbage collection trucks, and manpower, in partnership with civil society organizations. The operation aims to restore the natural flow of waterways, mitigate flooding, and enhance environmental sustainability.

Joining the event were volunteers from private partner organizations, who worked hand in hand with MMDA in clearing debris and obstructions in San Juan's critical waterways.

This initiative is part of City Government of San Juan's request for waterways clearing and cleanup and the MMDA's continuing effort to strengthen flood control measures and promote environmental responsibility across Metro Manila.
