

## **BLESSING AND RIBBON-CUTTING CEREMONY OF THE LTO – SAN JUAN**

The City Government of San Juan, under the leadership of Mayor Francisco Javier M. Zamora, in partnership with the Department of Transportation (DOTr) and the Land Transportation Office (LTO), held the Blessing and Ribbon-Cutting Ceremony of the LTO – San Juan District Office on October 21, 2025 at San Juan Plaza, N. Domingo Avenue, San Juan City.

The event was attended by Asec. Markus V. Lacanilao, Chief of the LTO; Atty. Vigor D. Mendoza II, Chairman of the LTFRB; and Hon. Ysabel Maria J. Zamora, Representative of the Lone District of San Juan. Mayor Zamora led the ceremonial ribbon-cutting and blessing, which was followed by a walkthrough of the new facilities and the distribution of certificates for the Free Theoretical Driving Course, tricycle plates, and Palit Plaka Program.

The establishment of the LTO – San Juan District Office marks another milestone in the city's commitment to delivering accessible and efficient government services to its constituents. The new office houses several accredited facilities offering a range of services designed to make licensing, registration, and compliance more convenient for motorists and residents.

Among the services offered are the Driver's License and Permits Processing for new applications and renewals, and Motor Vehicle Registration and Renewal, which includes transactions such as transfer of ownership, duplicate CR/OR issuance, and record revisions. The LTO-Accredited Driving School will provide the 15-hour Theoretical Driving Course (TDC) required for Student Permit applications and the 8-hour Practical Driving Course (PDC) for Non-Professional and Professional Driver's License applications and renewals.

Additionally, the LTO-Accredited Medical Clinic will issue medical certificates required for all driver's license applications and renewals, while the LTO-Accredited Insurance Provider will offer CTPL (Compulsory Third-Party Liability) Insurance Policies needed for motor vehicle registration and renewal. The Private Emission Testing Center (PETC) will also operate within the complex, issuing Certificates of Emission Compliance (CEC) as part of the vehicle registration and renewal requirements.

Through this initiative, the City of San Juan continues to strengthen its partnerships with national agencies to ensure that public service remains convenient, efficient, and closer to the people.
