

MAYOR ZAMORA LEADS TURNOVER OF 83 NEW VEHICLES TO BOOST CITY GOVERNMENT AND BARANGAY OPERATIONS

Mayor Francis Zamora led the official blessing and ceremonial turnover of 83 brand-new service vehicles to various barangays and departments of the City Government of San Juan including the San Juan Police, on August 4, 2025 at the San Juan City Hall Open Parking.

This initiative is part of the city's continuous efforts to modernize its fleet and strengthen the capacity of its frontline units—particularly the barangays, the San Juan Police, essential departments and the City Disaster Risk Reduction and Management Office (CDRRMO)—in delivering fast, efficient, and responsive public service.

The fleet includes:

- 42 vehicles for San Juan's 21 barangays (1 Toyota Hilux FX Van and 1 Mitsubishi Triton Pick-up per barangay)

These will support barangay operations such as emergency response, peacekeeping patrols, community service logistics, and disaster preparedness activities.

- 41 vehicles for city departments and special operations, such as
 - Toyota Hilux 4x4 police patrol vehicles and a modified SWAT unit to enhance law enforcement visibility, mobility, and rapid response capacity across the city.
 - a rescue and monitoring vehicle for the CDRRMO, enabling faster deployment during disasters and more efficient monitoring of high-risk areas.
 - A 29-seater mini bus, Toyota Innovas, Hiace vans, LiteAce vans, pick-up trucks, and motorcycles to support general government services, logistical needs, and mobility of city and police personnel.

"These new vehicles are critical in enabling our city departments, barangays and the San Juan Police to deliver services faster, respond to emergencies more effectively, and bring the local government closer to every San Juaneño. This is a strong step forward in our vision for a modern, responsive, and service-oriented San Juan.," Mayor Zamora said

The program featured the blessing of the full vehicle fleet, followed by the symbolic turnover of vehicles to barangay captains and department heads.
